### The Blackfoot Watershed: Montana's Laboratory for Rural Conservation

July 24, 2020

Bitterroot Magazine

Blackfoot watershed landowners and ranchers want to protect their water, forested landscape and livestock. The Blackfoot Challenge gives them tools to do so.

Article

### Composting Carcasses in Cattle Country Keeps Livestock and Predators Alive

June 11, 2020

Mountain Journal

Livestock carcass composting programs run by conservation organizations help ranchers deter predators from the landscape, while honoring ranchers' privacy in tough times of death loss.

Article

### Yankton Bullet Makers

May 1, 2020

South Dakota Magazine

An unlikely small business partnership crafts environmentally friendly copper bullets for hunters and extreme long-range shooters alike.

## WORK EXPERIENCE

### NPS4C Communication Intern

Center for Climate Change Communication, George Mason University

06/2020 - 08/2020

Remote

NPS4C is a collaborative program that pairs George Mason University's Center for Climate Change Communication with the National Park Service.

Achievements/Tasks

- Designed, pitched and created four informational products to communicate impacts of climate change on Antietam National Battlefield's natural and cultural resources to visitors.
- Studied and discussed strategic communication and crafting messages about climate change and environmental science for various audiences, specifically National Park Service visitors.
- Communicated and worked with other team members, program directors and 4C and NPS staff from a fully remote setting, due to COVID-19 restrictions.

Eryn Campbell - [nps4c@gmu.edu](mailto:nps4c@gmu.edu)

### COPYWRITER

The Endangered Species Project, Julia Galloway Pottery

01/2020 - 05/2020

Missoula, MT

Achievements/Tasks

- Researched species designated as endangered, threatened and sensitive by various state wildlife departments.
- Wrote and edited catalog entries for Julia Galloway's collection of urns dedicated to endangered species.
- Wrote and edited short video scripts for social media posts about endangered species and urns.

Julia Galloway - [julia.galloway@mso.umt.edu](mailto:julia.galloway@mso.umt.edu)

### Editorial Intern

AMC Outdoors, The Appalachian Mountain Club

01/2018 - 05/2018

Boston, MA

The Appalachian Mountain Club is the non-profit organization dedicated to the conservation and stewardship of the Appalachian Trail corridor.

Achievements/Tasks

- Reported, wrote and edited print and web pieces about land conservation and outdoor recreation.
- Worked on multiple pieces at once while under deadline.
- Pitched, reported and wrote a long-form feature piece focused on all-female outdoor recreation activities positively affecting mental health and body image.
